# Important Bird and Biodiversity Areas

## Legend

- Nepal
- Conservation Areas
- Hunting Reserve
- National Parks
- Wildlife Reserve
- Other IBAs
- IBA Boundary

- High Mountain
- Hill
- Middle Mountain
- Siwalik
- Tarai

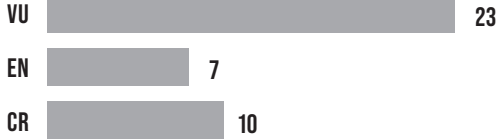

- 1 Annapurna Conservation Area
- 2 Api Nampa Conservation Area
- 3 Argha
- 4 Banke National Park and Buffer Zone
- 5 Bardia National Park and Buffer Zone
- 6 Barokot
- 7 Chitwan National Park and Buffer Zone
- 8 Dang Deukhuri Foothill Forest and West Rapti Wetlands
- 9 Devdaha
- 10 Dhanushadham Protected Area and Associated Farmlands
- 11 Dharan Forest
- 12 Dhorpatan Hunting Reserve
- 13 Gadi Sirichuli
- 14 Gaurisankar Conservation Area
- 15 Ghodaghodi Lake Area
- 16 Jagdishpur Bird Sanctuary/Lumbini Farmlands
- 17 Janaknagar-Murtiyra Forest and Associated Farmlands
- 18 Kanchenjunga Conservation Area
- 19 Kanjivastu
- 20 Khandbari-Num Forests
- 21 Khatpat National Park and Buffer Zone
- 22 Khufiya
- 23 Kohabi and Baragadi
- 24 Koshi Tapu Wildlife Reserve and Koshi Barrage
- 25 Langtang National Park and Buffer Zone
- 26 Limi Valley
- 27 Madane Forest Conservation Area
- 28 Mai Valley Forest
- 29 Makalu Barun National Park and Buffer Zone
- 30 Manaslu Conservation Area
- 31 Morang Farmlands
- 32 Panchase Forest Conservation Area
- 33 Parsa National Park and Buffer Zone
- 34 Phulchoki Mountain Forest
- 35 Rampur Valley
- 36 Rara National Park and Buffer Zone
- 37 Reshunga Forest Conservation Area
- 38 Sagarmatha National Park and Buffer Zone
- 39 Shey-Phoksundo National Park and Buffer Zone
- 40 Shivapuri Nagarjun National Park and Buffer Zone
- 41 Shukla Phanta National Park and Buffer Zone
- 42 Triyuga Watershed

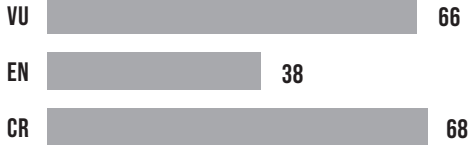

# FACTSHEET

**Total Species: 902**

## GLOBALLY THREATENED 40

## NATIONALLY THREATENED 172

## CITES 121

**Protected Species: 9**

- Himalayan Monal (डाँफ्रे)
- Satyr Tragopan (मुनाल)
- Cheer Pheasant (चीर)
- Sarus Crane (सारस)
- Bengal Florican (खरमुजुर)
- Lesser Florican (सानो खरमुजुर)
- Black Stork (कालो गरुड)
- White Stork (सेतो गरुड)
- Great Hornbill (राजधनेश)

## New Species Record and Contribution

**Firethroat** *Calliope pectardens* by Suchit Basnet and Badri Chaudhary from Koshi Camp, Koshi Tappu Wildlife Reserve on 28 March 2023.

**Lesser Grey Shrike** *Lanius minor* by Devraj Joshi from Kalapani, Shuklaphanta National Park on 13 May 2023

**White-cheeked Starling** *Spodiopsar cineraceus* by Shankar Tiwari from Lo Manthang, Upper Mustang on 7 May 2024

**Spotted Flycatcher** *Muscicapa striata* by Sanjay Tha Shrestha and Shankar Tiwari from Samar, Upper Mustang on 12 July 2024

**Naumann's Thrush** *Turdus naumanni* by Shankar Tiwari from Chaile, Mustang, Annapurna Conservation Area on 30 April 2024

**Purple-rumped Sunbird** *Leptocoma zeylonica* by Devendra Kumar Kharel from Kakabhitta, Mechinagar, Jhapa on 19 February 2025

**Violet Cuckoo** *Chrysococcyx xanthurhynchus* by Rajendra Gurung, Alexander John Ang Yang, Roger Robert Rajah and Anish Timsina from Sukhani Forest Area, Ilam on 7 April 2025

**Short-tailed Shearwater** *Ardena tenuirostris* by Anish Timsina from Koshi Barrage, Saptari on 3 May 2025

**Malabar Whistling-thrush** *Myiophonus horsfieldii* by Deu Bahadur Rana and Amrit Nepali near Lumbini Cable Car area, Butwal, Rupandehi on 30 May 2025

**Red-necked Grebe** *Podiceps grisegena* by Sugam Guragain and Susmita Chaudhary from Bulbule Lake, Surkhet on 15 October 2025

## Regionally extinct from Nepal

Black-breasted Parrotbill *Paradoxornis flavirostris*

Brown Grasshopper-warbler *Locustella luteoventris*

Green Cochoa *Cochoa viridis*

Grey-browed Broadbill *Serilophus rubropygius*

Jungle Bush-quail *Percidula asiatica*

Pink-headed Duck *Rhodonessa caryophyllacea*

White-bellied Heron *Ardea insignis*

Whooper Swan *Cygnus cygnus*

**Cover photo:** Great Hornbill by Utsab Jung Thapa

## Update and taxonomy note

This official checklist is based on "Birds of Nepal: An official checklist" updated and published by Department of National Parks and Wildlife Conservation and Bird Conservation Nepal in year 2022.

### New species after split (HBW and BirdLife International 2024)

Tibetan Sandplover *Charadrius atrifrons*, split from Lesser Sandplover *Charadrius mongolus*

**This checklist follows BirdLife International;** Handbook of the Birds of the World and BirdLife International (2025). HBW and BirdLife International (2025) Handbook of the Birds of the World and BirdLife International digital checklist of the birds of the world. Version 10 Available at: <https://datazone.birdlife.org/about-our-science/taxonomy>

---

### Key on Status

**GTS:** *Globally Threatened Status (IUCN RedList)*

---

**NTS:** *Nationally Threatened Status (National RedList)*

---

**CITES:** *Convention on International Trade in Endangered Species of Wild Fauna and Flora*

---

---

### Key to Codes

CR: Critically Endangered

---

EN: Endangered

---

VU: Vulnerable

---

I: *Appendix I*

---

II: *Appendix II*

---

III: *Appendix III*

# Bird Conservation Nepal

Established in 1982, Bird Conservation Nepal (BCN) is the leading organization in Nepal, focusing on the conservation of birds, their habitats, and sites. It seeks to promote interest in birds amongst the general public, encourage research on birds and identify major threats to birds' continued survival. As a result, we are the foremost scientific authority providing accurate information on birds and their habitats throughout Nepal. We provide scientific data and expertise on birds for the Government of Nepal through the Department of National Parks and Wildlife Conservation (DNPWC) and work closely in birds and biodiversity conservation throughout the country.

BCN is a membership-based organization with a founder president, patrons, life members, friends of BCN, and several supporters. Our membership provides strength to the society and is drawn from people from all walks of life from students, professionals, and conservationists. Our members act collectively to set the organization's strategic agenda.

We are committed to showing the value of birds and their special relationship with people. As such, we strongly advocate the need for peoples' participation as future stewards to attain long- term conservation goals.

As the Nepalese Partner of BirdLife International, a network of more than 123 organizations around the world, BCN also works on a worldwide agenda to conserve the world's birds and their habitats.

# Department of National Parks and Wildlife Conservation

Following the National Parks and Wildlife Conservation Act, of 1973; the Department of National Parks and Wildlife Conservation (DNPWC) has been playing a leading role in conserving the nation's biodiversity. The DNPWC roles are over increasing along with the paradigm shift from species conservation approach to landscape-level approach in the recent days. The DNPWC conserved wildlife with a network of 13 National Parks, 1 Wildlife Reserve, 6 Conservation Areas, 1 Hunting Reserve, and 13 Buffer Zones. The protected area network covers 34,419.75 km<sup>2</sup> (23.39%) of the country's geographical area.

In comparison to its size, Nepal is extremely rich in biodiversity. With less than 1% of the world's landmass, the country is endowed with 2.7% flowering plant species, 4.5% of mammal species, 9% of bird species, and 2.6% of butterfly and moth species of the world. Altitudinal variation within a short span ranging from 60m to 8848m causes the existence of 118 types of ecosystems, 75 types of vegetation, and 35 types of forest in the country. Along with Nation's biodiversity conservation, DNPWC works as a focal institution; for example, Ramsar Convention, The World Heritage Convention (UNESCO), the International Union for Conservation of Nature (IUCN), the Global Tiger Forum (TGF), Convention on Biodiversity and the program of Work on Protected Areas (PoWPA). This department is the management authority for fauna under the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) provision. Two National Parks have been enlisted as the World Heritage Sites under the natural category: Sagarmatha (Mt. Everest) National Park and Chitwan National Park in 1979 and 1984 respectively. A total of 10 Wetland Sites in the country have been designated as Wetland of International Importance (Ramsar Sites). Of them 6 Ramsar Sites fall under the protected Areas network viz: Rara Lake, Phoksundo Lake, Gosaikunda and associated lakes, Gokyo and associated Lake, Bis Hazari Lake and Koshi Tappu Wildlife Reserve and 4 Ramsar Sites i.e. Maipokhari, Ghodaghodi Lake and Jagadishpur Reservoir and Lake Cluster of Pokhara Valley is outside the Protected Areas.

## GOAL

The overall goal of the Department is to conserve wildlife and outstanding landscape having ecological importance for the well-being of people.

## SPECIFIC OBJECTIVES

*The specific objectives of the Department are;*

- To conserve rare and endangered wildlife including flora and faunal diversity by maintaining representative ecosystems
- To conserve and manage outstanding landscapes of ecological importance
- To support the livelihood of local people through buffer zone and conservation areas management programs
- To promote ecotourism consistent with biodiversity conservation.
